

RARE
DISEASE
DAY
FEB 28TH

THE DESSH FOUNDATION

Thanks you

Did you know less than 10% of rare diseases have a treatment? That's why bringing awareness to rare diseases like DeSanto-Shinawi Syndrome is an important part of our mission. By displaying this ribbon on your mailbox or front door for rare disease day, you are shining the light of awareness on DESSH and bringing us one step closer to a cure.
